701-704.....	Turweston
729-730.....	White Waltham

AIRNOTES

Airnotes provide a comprehensive listing of all changes applicable to the current Flight Guide. These are updated every 28 days in line with the AIRAC cycle and are available via the Pooleys Website.

Changes notified since the last issue of Airnotes are identified by a 'bullet' in the left-hand margin.

To obviate the necessity of incorporating lengthy manuscript amendments, it is suggested that pages which are subject to amendment be suitably annotated, and then refer to the Airnotes, as required, for details of the changes.

International Dawn to Dusk Competition

The Dawn to Dusk Competition, now in its **fifty eighth year**, provides a unique aeronautical challenge participating in a day's flying using an aircraft of the competitor's choice. The competition is an opportunity to further your flying, to expand your horizons and to give you the excuse you need to have the flying adventure you have always wanted to have.

The Objective of Dawn to Dusk is to encourage the most interesting employment of a Flying Machine within the limits of competent airmanship and to demonstrate the capabilities of pilot and machine in a day's flying, in the hours between Dawn and Dusk, whilst undertaking an original and praiseworthy objective.

All that is required is for the competitor to set themselves a challenging goal with a theme and fly it. You then need to write up a detailed log of your preparations and flight.

Over the past 50+ years winning and highly placed entries have been submitted from more than 14 countries including Australia, New Zealand, Scandinavia, Canada, United States and of course from across Europe.

If you are interested in entering the competition, please click on the '**How to Enter**' tab on our website: www.pooleys.com. If you have any questions, please email enquiries@pooleysdawntodusk.com and we will come back to you.
