Felthorpe AD lies to the North West corner of the Norwich CTZ, in Class D airspace. All flights to, from or remaining in the Felthorpe circuit must normally be notified and cleared with Norwich ATC by telephone before engine start, Tel: 01603 420641 or 01603 891155.

Arrivals

Standard routing inbound is from Lenwade Lakes VRP at 1200 ft Norwich QNH when cleared by Norwich APP 119-355. Acft will be transferred to Norwich Tower 124-255 at the VRP.

Departure Procedures

Standard routing outbound is via Swannington VRP at 1000 ft Norwich QNH. Acft call Norwich Tower 124-255 asap on take-off and will be transferred to Norwich App 119-355 at the VRP.

Continued

Circuits Rws 05 & 16 RH, Rws 23 & 34 LH.

Circuit altitude 800 ft Norwich QNH.

Circuits should remain within 1nm of the AD and remain North of the A1067.

Once any circuit traffic is identified, circuit joining is a Captain's discretion;
Circuit departure is a climb to 1000 ft Norwich QNH, turning in circuit direction to pass through the AD overhead towards Swannington VRP.

RT Circuit R/T at AD on Norwich Tower frequency is restricted to the following;

- "c/s Downwind Felthorpe Rwy --" (no response from ATC)
- "c/s Final Felthorpe Rwy --" (ATC issue surface wind at EGSB)

Squawk: Transponder equipped acft squawk 7367 before take-off.

Noise Abatement: Avoid Felthorpe and Taverham built up areas;
Housing around the circuit patterns should be avoided as much as possible.

Visiting aircraft Captains very welcome, but strongly advised to consult
http://felthorpe.net/Pilot_Procedures.html before departure.

NOISE ABATEMENT CHART

Fuel: Avgas 100LL available by PPR.
