Volume 1

Contents

Introduction	ix
1. Aircraft Familiarisation	1
2. Before and After Flight	
2a. Preparation for Flight	13
2b. Starting and Stopping the Engine	19
2c. Post-Flight Actions	23
3. Air Experience	25
4. The Controls	
4a. The Primary Effect of Each Main Flight Control	29
4b. The Further Effect of Each Main Flight Control	40
4c. The Art of Trimming	45
4d. The Effect of Airspeed and Slipstream	49
4e. The Effects of Power Changes	53
4f. The Effect of Using Flaps	57
4g. Carburettor Heat	60
4h. The Mixture Control	62
4i. Using the Radio	64
4j. Cabin Heating and Ventilation	68
5. Taxiing an Aeroplane	69
6. Straight and Level	
6a. Flying Straight and Level in Balance at Constant Power	77
6b. Flying Straight and Level in Balance at a Selected Airspeed	91
6c. Cruising with Flap Extended	96
7. Climbing	103
8. Descending	
8a. The Glide	115
8b. The Powered Descent	124
8c. Use of Flap in the Descent	128
8d. The Sideslip	133

9. Turning	
9a. The Medium Level Turn	137
9b. The Climbing Turn	148
9c. Descending Turns	152
9d. Turning onto Selected Headings	164
10. Stalling and Slow Flight	
10a. Slow Flying	167
10b. Stalling	173
11. Spinning	
11a. Incipient Spins	187
11b. Full Spins	189
12. Standard Take-Off and Climb to Downwind Leg	197
13. Circuits, Approaches and Landings	
13a. The Circuit, Powered Approach and Normal Landing ..	215
13b. The Go-Around	232
13c. Departing and Joining the Circuit	236
13d. The Flapless Approach and Landing	243
13e. The Glide Approach and Landing	245
13f. Crosswind Operations	250
13g. Short-Field Operations	266
13h. Soft-Field Operations	270
14. First Solo	273
15. Advanced Turning	
15a. The Steep Level Turn	275
15b. The Steep Descending Turn	283
15c. Recovery from Unusual Attitudes	286
16. The Forced Landing Without Power	289
17. Precautionary Landings	
17a. The Precautionary Search and Landing	307
17b. Ditching in Water	313
18. Pilot Navigation	
18a. Pilot Navigation	315
18b. Navigation at Lower Levels and in Reduced Visibility ...	336
18c. Radio Navigation — see <i>Vol. 3 & 5 of this series</i>	347
19. Instrument Flying	349
Appendix 1	
The PPL(A) Skill Test	385
Index	391

Flying Training

Airwork Diagrams

4a.	The Primary Effect of Each Main Flight Control	36
4b.	The Further Effect of Each Main Flight Control	43
4c.	The Art of Trimming	48
4d.	Effect of Airspeed and Slipstream	52
4e.	Effect of Making Power Changes	56
4g.	Use of Carburettor Heat	61
4h.	Use of the Mixture Control	63
5.	Taxiing an Aeroplane	76
6a.	Straight and Level in Balance at Constant Power	88
6b.	Straight and Level in Balance at a Selected Airspeed	93
6c.	Part (i) The Effect of using Flap	98

7.	The Climb	110
8a.	The Glide	122
8b.	The Powered Descent	127
8c.	Use of Flaps in the Descent	131
8d.	The Sideslip	135
9a.	The Medium Level Turn	147
9b.	The Climbing Turn	151
9c.	Part (i) The Gliding Turn	156
	Part (ii) The Descending Turn Using Power	158
	Part (iii) The Descending Turn with Flap Extended	160
	Part (iv) Sideslipping in a Gliding Turn	163
10a.	Slow Flying	172
10b.	The Standard Stall and Recovery Procedure	180

11a.	The Incipient Spin	188
11b.	Full Spins	196
12.	Standard Take-Off and Climb to Downwind Leg	210
13a.	Powered Approach and Normal Landing	226
13b.	The Go-Around	235
13d.	The Flapless Approach and Landing	244
13e.	The Glide Approach and Landing	249
13f.	Part (i) Crosswind Take-Off	254
	Part (iia) Crosswind Landing – Crab Method	260
	Part (iib) Crosswind Landing – Wing-Down	263
	Part (iic) Crosswind Landing – Combination Method	265
15a.	Steep Level Turns	280
15b.	Steep Descending Turns	285
15c.	Recovery from Unusual Attitudes	288
16.	Practising the Forced Landing	304
17a.	The Precautionary Search and Landing	311
18b.	Low-Level Flying	344
19.	Instrument Flying	
	Part (i) Flying Straight and Level	370
	Part (ii) Climbing, Cruising and Descending	373
	Part (iii) Turning	380
	Part (iv) Recovery from Unusual Attitudes	383

Editorial Team

Dorothy Saul-Pooley LLB(Hons) FRAeS

Dorothy holds an ATPL (A) and a CPL (H), and is both an instructor and examiner on aeroplanes and an instructor on helicopters. She is Head of Training for a school dedicated to running Flight Instructor courses at Shoreham. She is also a CAA Flight Instructor Examiner. In addition, having qualified as a solicitor in 1982, Dorothy acted for many years as a consultant specialising in aviation and insurance liability issues, and has lectured widely on air law and aviation insurance. This highly unusual combination of qualifications led to her appointment as Honorary Solicitor to the Guild of Air Pilots and Navigators (GAPAN).

Dorothy is a Fellow of the Royal Aeronautical Society, Past Chairman of the GAPAN Instructor Committee of which she was a founding member and the prime instigator of the Guild's Joint Forum with Central Flying School at RAF Cranwell for Senior Flying Instructors. She is a Past Chairman of the Education & Training Committee. After serving as a Warden on the Court of GAPAN for three years, she was appointed Master for the year 2014-2015 of the newly renamed Honourable Company of Air Pilots. She is also Chairman of the Professional Flying Instructors Association.

In 2003 Dorothy was awarded the Jean Lennox Bird Trophy for her contribution to aviation and support of Women in Aviation and the BWPA (British Women Pilots Association). In 2013, Dorothy received the prestigious award of a Master Air Pilots Certificate from GAPAN. In 2015 she was awarded the Brabazon Cup by the BWPA for her outstanding achievement in aviation. A regular contributor to seminars and conferences, Dorothy is the author and editor of a large number of flying training books and has published articles in legal and insurance journals and many in aviation magazines.

Esther Law BA(Hons) AFRAeS

Esther holds a CPL/IR and instructed for some years at White Waltham Airfield in Berkshire. Esther took up flying as a hobby in the 80s whilst working the banking industry as a software developer and systems analyst, gaining her PPL in 1989. After several years in IT, she returned to full-time education and completed a Law degree at Oxford University in 2007. She subsequently worked as a legal editor, writing and editing Law

Reports for the Cayman Islands and Gibraltar. In 2008, Esther finally decided to pursue flying as a career and completed the ATPL ground exams, followed by training for the CPL and Instructor Rating. She has been working full-time as a PPL flying instructor since 2009. Esther is a member of the Honourable Company of Air Pilots and the British Women Pilots Association.

A Condensed History of the Air Pilot Manuals

For over 30 years the Air Pilot Manuals have led the academic training of pilots in the United Kingdom and in many countries around the world.

I first met Trevor Thom, a professional pilot and natural teacher, in Melbourne during a visit to Australia in January 1985. He already had his series of PPL Manuals for the Australian market and I asked him to produce a series for the New Zealand market where we had a small aviation business. Having completed this task, Trevor immediately began writing the first of the Air Pilot Manuals for the United Kingdom market and this project began in earnest on 5th December 1985.

Both Trevor Thom and Robert Johnson commenced the task in my office at Feldon. By the end of the following year, all four volumes were complete and were published in February 1987. At that time, we estimated that 95% of all the UK Flying Schools were using our manuals. Volumes 5, 6 and 7 followed, so completing the full series.

Unfortunately, Trevor Thom had a serious accident at home which prevented him from continuing with the editing of the manuals. His rights were eventually sold to David Robson, another experienced pilot and natural teacher, who progressively improved the drawings and brought colour into the manuals for the first time.

Over the years there have been many assistant editors, in particular Peter Godwin, whose help I first asked for in the very early days with Trevor Thom and which continued until quite recently. The rights in the Air Pilot Manuals are now vested with the Pooley family and they continue to be edited and published from our offices and the flying instructor school at Shoreham Airport.

The Air Pilot Manuals have an outstanding reputation for accuracy and are continuously updated. They are recommended CAA reading material and are referred to extensively in the CAA examination answer booklet.
